

## Press release

### The new Angst+Pfister customer magazine

#### Angst+Pfister presents the fifth international edition

**Zurich, 7/16/2008 The new Angst+Pfister magazine is out! The current issue features a number of technical articles about the wide variety of application possibilities for Angst+Pfister products.**

Read how Angst+Pfister designed and installed a security lighting system for the St. Jakob Park football stadium in Basel that met the stringent specifications for the EURO 08 football championship. In another interesting article, one of our product application engineers explains how the City of Vienna made its public trashcans more visible and safe with the help of orange-colored PUR profiles from Angst+Pfister. This and much more is available in the newest edition of the Angst+Pfister magazine! Get your copy now!

The Angst+Pfister magazine is published twice a year in six different languages – German, French, Italian, Dutch, Czech and English – and is aimed at engineers, developers, designers and purchasing managers. The technical articles in the Angst+Pfister magazine present proven solution ideas for complex industrial requirements. Each issue also contains the latest news from the Angst+Pfister Group.

In The current issue of our magazine is available on the [Angst+Pfister Website](#). We would also be happy to send you a copy by post on request. If you are interested in reprinting or reproducing a technical article for use in another publication, please obtain advance authorization from one of the contact partners listed below.

**About the Angst+Pfister Group**

The Angst+Pfister Group is a leading international technical distributor and service provider for high-end industrial components. As a supply and solutions partner for engineering plastics, sealing, fluid-handling, drive, and anti-vibration technology as well as sensors, Angst+Pfister combines efficient logistics concepts with comprehensive product application engineering services. Since its founding more than 80 years ago, the group has grown continually and currently employs more than 850 people in Switzerland, Germany, Austria, Italy, France, Belgium, the Netherlands, the Czech Republic and China. The Angst+Pfister Group has a worldwide customer base of 75,000+ companies of varying size. Besides providing customer-specific parts, the group offers a product range consisting of approximately 100,000 standard items.
